WELCOME

Welcome to our new catalogue for 2027 featuring an ever-increasing focus on renewable, recyclable and sustainable products.

In collaboration with our suppliers, we are making huge strides to a more sustainable way of working. Over the past few years there has been a massive improvement in production methods to create materials with eco credentials, to manufacture products made using corn starch or sugar cane, products that are 100% biodegradable and are referred to as Bioplastics. Or they are made using sustainable, recycled or partially recycled material. New for 2027 we are delighted to partner with Neutral® clothing. Every step of how their clothing is made is certified, ensuring transparency, responsibility and the highest standards. Neutral® is the highest scoring B Corp in the EU.

These processes are being constantly refined. As the number of such processes is increasing all the time, we've highlighted some of our most widely used.

KEY

- SHORTER LEAD TIMES AVAILABLE
- FULL COLOUR DIGITAL PRINTING AVAILABLE
- PRODUCT MANUFACTURED IN THE UK
- MADE FROM RECYCLED MATERIAL
- MADE FROM RECYCLED PLASTIC BOTTLES
- MADE FROM WHEAT STRAW
- MADE FROM BAMBOO

- CARBON NEUTRAL
- MADE FROM COTTON

ocean bottle

Each Ocean Bottle is entirely carbon neutral and collects 1,000 plastic bottles to improve livelihoods in coastal communities. The bottle contains recycled stainless steel and recycled ocean-bound plastic and is NFC Smart Chip enabled to collect more plastic with every refill.

GENERAL TERMS

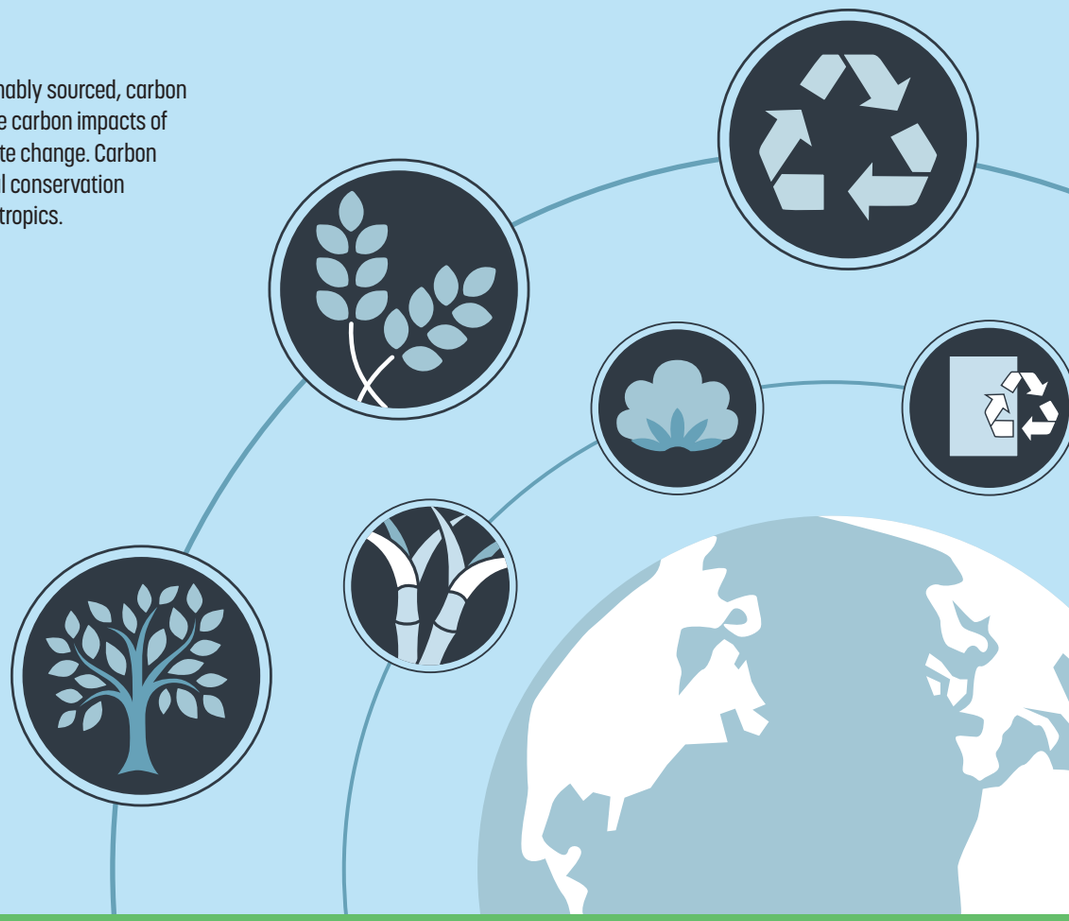

This catalogue has been printed and bound in the UK. We have used sustainably sourced, carbon balanced paper. Carbon balanced paper is a simple way for us to reduce the carbon impacts of our paper and printing, reducing our carbon footprint and impacts on climate change. Carbon Balancing is delivered in partnership with World Land Trust, an international conservation charity, through the protection and restoration of threatened forests in the tropics.

Sustainably sourced carbon balanced paper

WORLD LAND TRUST™
www.carbonbalancedpaper.com
CBP0001908250418302E

Some of our products are imported and even our UK manufactured products are subject to extreme volatility in currency and freight prices. It is vital you check prices before placing any orders. Origination is the set up charge for printing, embroidery or engraving and will vary depending on product and how many colours are required. Please ask for a detailed quotation.

All prices shown in the catalogue are exclusive of carriage and VAT unless otherwise stated. The products shown in this publication, names or trademarks DO NOT imply that these products have been supplied to, or endorsed by the owners of these said names or trademarks. They are used merely to show the effect of personalisation of the item shown. It is not our intention to cause any offence to the owners of said names or logo and we apologise for any inconvenience that this may cause. We reserve the right to alter any details or design of products illustrated without further notice. We reserve the right of retention of title of all goods supplied until paid for in full in line with our payment terms. We shall be deemed to have completed an order upon delivery of +/- 5% of the quantity ordered. Although every effort has been made to reproduce accurately the colours of the items illustrated. It is not possible to guarantee perfect colour reproduction due to limitations of the printing process.

BAGASSE

Bagasse is a revolutionary, high quality paper and is an eco friendly alternative to wood based paper. It is made from the fibrous residue left over after sugarcane is processed. It is not a primary raw material, but a by-product of sugar production. In fact, it's a waste product that is often burned or composted. It addresses environmental concerns such as deforestation and waste management, and is much faster growing than wood, being ready to harvest after 13 months.

como porto RECYCLED

High quality stitched gifts made from recycled bottles (rPET) with an exceptional deboss quality. Both ranges have exceptional eco credentials. The Como range has a subtle grained finish and is soft and tactile in 8 colours. The Porto range has a smooth finish and is soft and tactile in 10 colours. Over 70% of the range is made in the UK including notebooks and hand sanitiser pouches. Reach compliant and vegan friendly.

Neutral®

Certified Responsibility™

Every step of how Neutral clothing is made is certified, ensuring transparency, responsibility,and the highest standards from start to finish. Neutral® is the highest scoring B Corp in the EU. Besides being made from organic Fairtrade cotton, they also have a Tiger Cotton® selection, made from organic in-conversion cotton, helping farmers switch to organic production.

AWARE

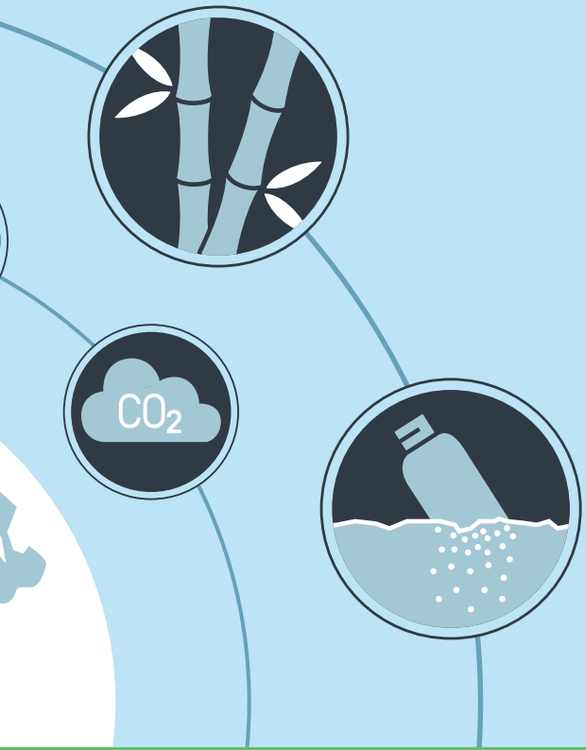

THE TRUE STORY OF SUSTAINABLE FABRICS

Impact Aware products are made with AWARE™ tracer. Recycled materials requiring almost zero water in production. AWARE™ applies tracer particles to the raw recycled cotton and then uses blockchain to guarantee the material that enters the supply chain is the same that comes out as apparel. By offering validation, transparency and verification, this can work to eliminate greenwashing and establish more trust in the textiles industry.

PREVENTED OCEAN PLASTIC

Prevented Ocean Plastic is made from recycled plastic PET bottles and produced according to European and North American quality standards. Prevented Ocean Plastic is categorised as being found within 30 miles of an ocean coastline or major waterway that feeds into the ocean. The countries it is collected from lack waste management infrastructure and collection incentives and have infrastructure that is being overwhelmed by population growth or tourism.

NFC is a foil thin tag that can be coded and inserted in to products. When you hover over the tag with your phone it automatically launches your digital content, be it a web page, social media post, video, etc.

This technology enables you to promote whatever digital content you want, directly through the medium of the tangible merchandise that you are creating, to maximise audience engagement and user experience.

CHILI

As part of our dedication to the environment, Chili Concept has been carbon neutral since 2018. By implementing energy-efficient practices, supporting renewable energy sources and reforestation, carbon emissions are offset to help create a cleaner and greener world. We understand that even small steps can make a big difference. That's why we actively choose eco-friendly materials and responsible practices to reduce our environmental footprint. Small steps matter, and we're committed to taking them in the right direction.

NFC TAGS - LINK YOUR PRODUCT TO YOUR DIGITAL CONTENT USE YOUR PHONE TO SCAN THE HIDDEN CHIP

NFC is a foil thin tag that can be coded and inserted into products. When you hover over the tag with your phone it automatically launches your digital content be it a web page, social media post, video, etc.

This technology enables you to promote what ever digital content you want, directly through the medium of the tangible merchandise that you are creating, to maximise audience engagement and user experience.

It therefore links digital to the physical and provides limitless ways in which merchandise can assist in campaigns and key messaging.
